Creative Enzymes®

S-Hydroxypropyl Tetrahydropyrantriol

Cat. No. CEGZ-6481

Lot. No. (See product label)

Introduction

Description	S-Hydroxypropyl Tetrahydropyrantriol is a polyhydroxylated carbohydrate-derived small molecule supplied at 99% purity.
Applications	Glycan-related ingredient research Skin-conditioning formulation studies Purity and identity analysis

Product Information

CAS No.	439685-79-7
Molecular Formula	C8H16O5
Chemical Name	S-Hydroxypropyl tetrahydropyrantriol
Molecular Weight	192.21
Purity	99%
Structure	Polyhydroxylated tetrahydropyran derivative
Function	Polyhydroxylated small-molecule research material
Grade	Research grade
Usage	For laboratory research and cosmetic formulation studies.
