

Boc-L-Tyr(tBu)-Aib-L-Gln(Trt)-Gly

Cat. No. CEGZ-6490

Lot. No. (See product label)

Introduction

Description

Boc-L-Tyr(tBu)-Aib-L-Gln(Trt)-Gly is a protected tetrapeptide fragment containing Boc, tert-butyl, and trityl protecting groups, supplied at 99% purity.

Applications

Protected peptide fragment synthesis Tetrapeptide coupling studies Selective deprotection optimization Peptide process and analytical research

Product Information

CAS No.

2612237-79-1

Purity

99%

Structure

Boc-, tert-butyl-, and trityl-protected tetrapeptide

Composition

Boc-L-Tyr(tBu)-Aib-L-Gln(Trt)-Gly

Function

Protected peptide synthesis intermediate

Grade

Peptide synthesis grade

Usage

For peptide synthesis and laboratory research.
