Fmoc-L-Ile-α-Me-L-Leu-L-Leu

Cat. No. CEGZ-6491

Lot. No. (See product label)

Introduction

Description	Fmoc-L-Ile-α-Me-L-Leu-L-Leu is an N-terminally Fmoc-protected tripeptide fragment containing an α-methyl-L-leucine residue, supplied at 99% purity.
Applications	Solid-phase peptide synthesis Modified peptide fragment assembly Coupling and deprotection studies Peptide process and analytical research

Product Information

Purity	99%
Structure	Fmoc-protected modified tripeptide
Composition	Fmoc-L-Ile-α-Me-L-Leu-L-Leu
Function	Protected peptide synthesis intermediate
Grade	Peptide synthesis grade
Usage	For peptide synthesis and laboratory research.
