Fmoc-L-Gln(Trt)-Aib-L-Ala-L-Phe

Cat. No. CEGZ-6493

Lot. No. (See product label)

Introduction

Description	Fmoc-L-Gln(Trt)-Aib-L-Ala-L-Phe is an Fmoc- and trityl-protected tetrapeptide fragment supplied at 99% purity.
Applications	Solid-phase peptide synthesis Protected tetrapeptide fragment assembly Coupling and deprotection studies Peptide identity and purity analysis

Product Information

Form	Solid
Purity	99%
Structure	Fmoc- and trityl-protected tetrapeptide
Composition	Fmoc-L-Gln(Trt)-Aib-L-Ala-L-Phe
Function	Protected peptide synthesis intermediate
Grade	Peptide synthesis grade
Usage	For peptide synthesis and laboratory research only.
