

Boc-Amino Fluorophenyl Pyrazolopyridine

Cat. No. CEGZ-6498

Lot. No. (See product label)

Introduction

Description

Boc-Amino Fluorophenyl Pyrazolopyridine is a chiral fused heterocyclic intermediate supplied at 99% purity.

Applications

Fused heterocycle synthesis Chiral intermediate development Amino-group derivatization studies Structure confirmation and purity analysis

Product Information

Form

Solid

CAS No.

2212021-59-3

Chemical Name

tert-Butyl (4S)-3-amino-2-(4-fluoro-3,5-dimethylphenyl)-4-methyl-2,4,6,7-tetrahydro-5H-pyrazolo[4,3-c]pyridine-5-carboxylate

Purity

99%

Structure

Boc-protected chiral pyrazolo[4,3-c]pyridine derivative

Function

Organic synthesis intermediate

Grade

Research grade

Usage

For laboratory research only.
