

Fmoc-2-Naphthyl-L-Alanine

Cat. No. CEGZ-6506

Lot. No. (See product label)

Introduction

Description

Fmoc-2-Naphthyl-L-Alanine is an Fmoc-protected aromatic amino acid derivative supplied at 99% purity.

Applications

Solid-phase peptide synthesis Aromatic amino acid incorporation Coupling and deprotection studies Identity and purity analysis

Product Information

Form Solid

CAS No. 112883-43-9

Molecular Formula $C_{28}H_{23}NO_4$

Molecular Weight 437.49

Purity 99%

Structure Fmoc-protected naphthylalanine derivative

Composition Fmoc-2-naphthyl-L-alanine

Function Protected amino acid building block

Grade Peptide synthesis grade

Usage For peptide synthesis and laboratory research only.
