Fmoc-α-Methyl-L-Leucine

Cat. No. CEGZ-6507

Lot. No. (See product label)

Introduction

Description	Fmoc-α-Methyl-L-Leucine is an Fmoc-protected alpha-methylated amino acid building block supplied at 99% purity.
Applications	Solid-phase peptide synthesis Modified leucine incorporation Coupling and deprotection studies Identity and purity analysis

Product Information

Form	Solid
CAS No.	312624-65-0
Molecular Formula	$C_{22}H_{25}NO_4$
Molecular Weight	367.445
Purity	99%
Structure	Fmoc-protected alpha-methylated L-leucine derivative
Composition	Fmoc-α-methyl-L-leucine
Function	Protected amino acid building block
Grade	Peptide synthesis grade
Usage	For peptide synthesis and laboratory research only.
