Fmoc-α-Methyl-L-Leucyl-L-Leucine

Cat. No. CEGZ-6508

Lot. No. (See product label)

Introduction

Description	Fmoc-α-Methyl-L-Leucyl-L-Leucine is an Fmoc-protected modified dipeptide fragment supplied at 99% purity.
Applications	Solid-phase peptide synthesis Modified dipeptide fragment assembly Coupling and deprotection studies Peptide identity and purity analysis

Product Information

Form	Solid
Purity	99%
Structure	Fmoc-protected alpha-methylated dipeptide
Composition	Fmoc-α-methyl-L-leucyl-L-leucine
Function	Protected peptide synthesis intermediate
Grade	Peptide synthesis grade
Usage	For peptide synthesis and laboratory research only.
