Vitamin U

Cat. No. CEGZ-6552

Lot. No. (See product label)

Introduction

Description	Vitamin U is a methionine-derived sulfonium compound supplied as a crystalline powder for research use in cell biology and nutrition studies.
Applications	Biochemical research; cell culture additive; nutritional and metabolic studies.

Product Information

Appearance	White crystalline powder with a characteristic odor; freely soluble in water, soluble in ethanol, insoluble in acetone.
CAS No.	3493-12-7
Molecular Formula	C6H14ClNO2S
Molecular Weight	199.70 g/mol
Melting Point	134–137 °C
Quality	≥98.2%

Usage and Packaging

Package	25 kg/drum (or as requested)

Storage and Shipping Information

Storage	Store in a cool, dry place in a tightly closed container.
