

Semax Peptide

Cat. No. CEGZ-6639

Lot. No. (See product label)

Introduction

Description

Semax is a synthetic heptapeptide derived from the adrenocorticotrophic hormone (ACTH) sequence.

Applications

Neuropeptide research, cognitive-function studies, and ACTH-derived peptide biology.

Product Information

Appearance

White to off-white powder

CAS No.

80714-61-0

Molecular Formula

C₃₇H₅₁N₉O₁₀S

Molecular Weight

813.92

Purity

≥95%

Amino Acid Sequence

Met-Glu-His-Phe-Pro-Gly-Pro (MEHFPGP)

Grade

Research grade

Storage and Shipping Information

Storage

Store at -20°C, protected from moisture.
