MOTS-C

Cat. No. CEGZ-6642

Lot. No. (See product label)

Introduction

Description	MOTS-C (Mitochondrial-Derived Peptide) is a short peptide encoded by a region of the mitochondrial genome and consists of 16 amino acid residues.
Applications	Peptide-hormone and receptor research; bioassay development and sequence–function studies.

Product Information

Molecular Formula	C101H152N28O22S2
Amino Acid Sequence	16 amino acids
Grade	Research grade
