N-Benzylglycine Ethyl Ester

Cat. No. CEGZ-50006

Lot. No. (See product label)

Introduction

Description	N-Benzylglycine ethyl ester is an N-alkylated glycine derivative bearing a benzyl group on the amino nitrogen and an ethyl ester on the carboxyl function. It is a secondary amino ester with two handles for further elaboration.
Applications	Used as a building block and intermediate in organic synthesis and medicinal chemistry for the preparation of N-substituted glycine derivatives and pharmaceutical intermediates.
Synonyms	ethyl N-benzylglycinate; N-benzylglycine ethyl ester

Product Information

CAS No.	6436-90-4
Molecular Formula	C11H15NO2
Molecular Weight	193.24
Notes	For research and development use only.

Storage and Shipping Information

Storage	Store in a tightly closed container in a cool, dry place.
