

## MK-0616 Macrocyclic Peptide Intermediate Methyl Ester

Cat. No. CEGZ-50024

Lot. No. (See product label)

### Introduction

#### Description

MK-0616 macrocyclic peptide intermediate methyl ester is a complex, Boc-protected peptide-derived intermediate carrying a methyl ester function, used in the synthetic route toward the macrocyclic peptide PCSK9 inhibitor MK-0616.

#### Applications

Used as a research intermediate in the synthesis of macrocyclic peptide compounds and in pharmaceutical process research.

#### Synonyms

Boc-protected MK-0616 intermediate methyl ester; methyl ester of the Boc-protected peptide intermediate used in the synthesis of the macrocyclic PCSK9 inhibitor MK-0616

### Product Information

#### CAS No.

2618723-52-5

#### Notes

For research and development use only.

### Storage and Shipping Information

#### Storage

Store in a tightly closed container in a cool, dry place.
