N-Trityl-glycyl-glycine

Cat. No. CEGZ-50030

Lot. No. (See product label)

Introduction

Description	N-Trityl-glycyl-glycine is a protected diglycine building block in which the N-terminal amino group carries the bulky, acid-labile trityl group and the C-terminal carboxyl group is free for coupling.
Applications	Used as a building block in solution-phase and solid-phase peptide synthesis for the preparation of glycine-containing peptides and peptide intermediates.
Synonyms	trityl-glycyl-glycine; N-(triphenylmethyl)-glycylglycine

Product Information

Notes	For research and development use only.

Storage and Shipping Information

Storage	Store in a tightly closed container in a cool, dry place.
