

Heparin Sodium (Porcine Intestinal Mucosa)

Cat. No. CEGZ-50051

Lot. No. (See product label)

Introduction

Description

Heparin sodium is the sodium salt of heparin, a highly sulfated glycosaminoglycan composed of repeating disaccharide units of uronic acid and glucosamine. This product is extracted from porcine intestinal mucosa and purified to pharmaceutical active ingredient quality.

Applications

Used as an active pharmaceutical ingredient in anticoagulant preparations and as a raw material for biochemical reagents.

Synonyms

sodium heparin; heparin sodium salt
