

Cytochrome C Solution (Porcine Heart)

Cat. No. CEGZ-50053

Lot. No. (See product label)

Introduction

Description

Cytochrome C solution is a preparation of cytochrome c, a small heme-containing electron-transfer protein of the mitochondrial respiratory chain, extracted from porcine heart tissue and supplied in solution form.

Applications

Used as a raw material for preparations targeting tissue hypoxia and cellular metabolism, and as a research reagent in mitochondrial function and apoptosis studies.

Synonyms

cytochrome c; cytochrome c solution

Product Information

Source

Porcine heart

Form

Solution

CAS No.

9007-43-6

Notes

For research and development use only.

Storage and Shipping Information

Storage

Store in a tightly closed container in a cool, dry place.
