

Water-Soluble Quercetin

Cat. No. CEGZ-50065

Lot. No. (See product label)

Introduction

Description

Water-soluble quercetin is a formulated form of quercetin engineered for dispersibility and dissolution in aqueous systems, overcoming the poor intrinsic water solubility of the parent flavonoid. It is standardized to quercetin contents of 5% or 7%.

Applications

Used as an antioxidant ingredient in beverages, liquid dietary supplements, and aqueous formulations requiring a soluble flavonoid.

Synonyms

Soluble quercetin preparation

Product Information

Source

Sophora japonica L.

Appearance

Yellow-brown water-soluble powder

Purity

5%, 7% (HPLC)

Notes

For research and development use only.

Storage and Shipping Information

Storage

Store in a tightly closed container in a cool, dry place.
