

Sodium Sulfate Anhydrous

Cat. No. CEGZ-50171

Lot. No. (See product label)

Introduction

Description

Anhydrous sodium sulfate is a colorless to white crystalline granular powder with high chemical stability. The product meets USP, FCC, and EP quality requirements.

Applications

Used as a food processing aid, anti-caking agent, and quality improver; also widely used as a drying agent and diluent in laboratory and industrial formulations.

Synonyms

Disodium sulfate; Sodium sulphate; Glauber's salt (anhydrous basis)

Product Information

Appearance

Colorless or white crystalline granules or powder

Form

Powder

CAS No.

7757-82-6

Molecular Formula

Na₂O₄S

Molecular Weight

142.04

Purity

USP/FCC/EP

Notes

For research and development use only.

Storage and Shipping Information

Storage

Store in a tightly closed container in a cool, dry place.
