

Recombinant Protein A

Cat. No. CEGZ-50182

Lot. No. (See product label)

Introduction

Description

Recombinant Protein A is a recombinant form of the *Staphylococcus aureus* cell-wall protein that binds specifically to the Fc region of IgG from many mammalian species. Recombinant production ensures high purity, consistent quality, and the absence of animal-derived contaminants.

Applications

Used for affinity purification of antibodies and Fc-fusion proteins, immunoprecipitation, and as a ligand in antibody analysis and downstream bioprocessing.

Synonyms

Protein A; rProtein A; Staphylococcal protein A

Product Information

Appearance

White to off-white powder (lyophilized)

Form

Powder

CAS No.

91932-65-9

Purity

High purity

Notes

For research and development use only.

Storage and Shipping Information

Storage

Store in a tightly closed container in a cool, dry place.
