

L-Choline Bitartrate

Cat. No. CEGZ-50201

Lot. No. (See product label)

Introduction

Description

L-Choline bitartrate is the L-(+)-tartrate salt of choline, supplied as a colorless transparent or white crystalline powder. It is hygroscopic with a sour taste, odorless or with a faint trimethylamine-like odor, freely soluble in water, slightly soluble in ethanol, and insoluble in ether, chloroform, and benzene.

Applications

Used as a choline source in dietary supplements, functional foods, and feed premixes to support normal choline intake.

Synonyms

Choline hydrogen L-tartrate; L-(+)-Choline bitartrate; Choline bitartrate

Product Information

Appearance

Colorless transparent or white crystalline powder

Form

Powder

CAS No.

87-67-2

Molecular Formula

C₉H₁₉NO₇

Molecular Weight

253.25

Purity

FCC/USP

Notes

For research and development use only.

Storage and Shipping Information

Storage

Store in a tightly closed container in a cool, dry place.
