

Magnesium Methionine

Cat. No. CEGZ-50219

Lot. No. (See product label)

Introduction

Description

Magnesium methionine is a magnesium-amino acid chelate supplied as a white to pinkish crystalline powder that is soluble in water. The product provides a methionine content of not less than 44.5% and a magnesium content of not less than 16.4%, with loss on drying of not more than 6.0%.

Applications

Used as a feed additive to supply bioavailable organic magnesium together with methionine in animal nutrition.

Synonyms

Magnesium methionine chelate; Magnesium methionate

Product Information

Appearance

White to pinkish crystalline powder

Form

Powder

CAS No.

N/A

Molecular Weight

318.23

Purity

Methionine $\geq 44.5\%$; Mg $\geq 16.4\%$

Notes

For research and development use only.

Storage and Shipping Information

Storage

Store in a tightly closed container in a cool, dry place.
