

Recombinant Humanized Type XVII Collagen

Cat. No. CEGZ-50233

Lot. No. (See product label)

Introduction

Description

Recombinant humanized type XVII collagen is a bioengineered collagen based on the human COL17 sequence, a transmembrane collagen of the dermal-epidermal junction. It is supplied as a white or off-white powder, lyophilized powder, or sponge-like solid.

Applications

Used as an active ingredient in cosmetic formulations such as serums, creams, lotions, and masks, at a recommended addition level of 0.001%-0.5%; best added below 40 °C.

Synonyms

Recombinant humanized collagen XVII; COL17; BP180
