Bifida Ferment Filtrate

Cat. No. CEGZ-50234

Lot. No. (See product label)

Introduction

Description	Bifida ferment filtrate is a fermentation-derived cosmetic ingredient obtained from Bifidobacterium culture. It is rich in active metabolites and is used to support skin barrier repair, microbiome balance, and skin renewal.
Applications	Used as an active ingredient in serums, essences, creams, and lotions at a recommended addition level of 0.5%-10.0%, added in the cool-down phase of formulation.
Synonyms	Bifida ferment extract; Bifidobacterium ferment filtrate

Product Information

Appearance	Light yellow liquid
Form	Liquid
CAS No.	N/A
Purity	N/A
Notes	For research and development use only.

Storage and Shipping Information

Storage	Store in a tightly closed container in a dry place at 10-20 °C, protected from light.
