Sodium Polyglutamate

Cat. No. CEGZ-50235

Lot. No. (See product label)

Introduction

Description	Sodium polyglutamate is the sodium salt of poly-γ-glutamic acid, a water-soluble biopolymer produced by microbial fermentation. It is supplied as a white or off-white powder or granules with outstanding water-binding capacity.
Applications	Used as a long-lasting humectant and moisturizing ingredient in skin care, hair care, and other personal care formulations.
Synonyms	Poly-γ-glutamic acid sodium salt; Sodium poly-γ-glutamate; γ-PGA sodium

Product Information

Appearance	White or off-white powder or granules
Form	Powder
CAS No.	28829-38-1
Purity	N/A
Notes	For research and development use only.

Storage and Shipping Information

Storage	Store in a tightly closed container in a cool, dry place.
