

Chlorella Ferment

Cat. No. CEGZ-50239

Lot. No. (See product label)

Introduction

Description

Chlorella ferment is a cosmetic fermentation ingredient prepared by fermenting natural Chlorella. It is a light yellow to yellow liquid containing chlorella growth factor (CGF), amino acids, polyphenols, and flavonoids, and supports skin barrier repair and free-radical scavenging.

Applications

Used as a soothing and antioxidant active in skin care formulations at a recommended addition level of 0.5%-100%; can be added before or after emulsification.

Synonyms

Chlorella fermentation product; Fermented chlorella extract
