Bifida Ferment Lysate

Cat. No. CEGZ-50241

Lot. No. (See product label)

Introduction

Description	Bifida ferment lysate is a postbiotic cosmetic ingredient obtained by fermentation and cell-wall disruption of Bifidobacterium. It is a white to milky white uniform suspension rich in intracellular metabolites, cytoplasmic components, cell-wall glycopeptides, and lipoteichoic acid.
Applications	Used as a repairing and soothing active in anti-aging and sensitive-skin formulations at a recommended addition level of 0.5%-10%; can be added before or after emulsification.
Synonyms	Bifida ferment lysate suspension; Bifidobacterium lysate

Product Information

Appearance	White to milky white uniform suspension
Form	Liquid
CAS No.	N/A
Purity	N/A
Notes	For research and development use only.

Storage and Shipping Information

Storage	Store in a tightly closed container at room temperature, protected from light. Shelf life 12 months.
