

## Adefovir Dipivoxil(Preveon, Hepsera)

Cat. No. CEI-0249

Lot. No. (See product label)

### Introduction

#### Description

Adefovir Dipivoxil(Preveon, Hepsera) works by blocking reverse transcriptase, an enzyme that is crucial for the hepatitis B virus (HBV) to reproduce in the body.

#### Synonyms

Bis-POM PMEA, Preveon, Hepsera

### Product Information

#### CAS No.

142340-99-6

#### Molecular Formula

C<sub>20</sub>H<sub>32</sub>N<sub>5</sub>O<sub>8</sub>P

#### Molecular Weight

501.47

#### Purity

>99%

#### Targets

hepatitis B virus

#### Solubility

DMSO 100 mg/mL, Water

### Storage and Shipping Information

#### Storage

2 years at -20 centigrade
