

LY2886721

Cat. No. CEI-0392

Lot. No. (See product label)

Introduction

Description

LY2886721 is an oral, small molecule of beta-site amyloid protein cleaving enzyme (BACE) inhibitor with the potential to inhibit the synthesis of beta-amyloid and thereby to slow the clinical progression of AD.

Product Information

CAS No.	1262036-50-9
Molecular Formula	C ₁₈ H ₁₆ F ₂ N ₄ O ₂ S
Molecular Weight	390.41
Purity	>99%
Targets	BACE
Solubility	DMSO 9 mg/mL, Water

Storage and Shipping Information

Storage	2 years at -20 centigrade
