

## Terpendole C

Cat. No. CEI-0395

Lot. No. (See product label)

### Introduction

**Description** Isolated from Albophoma yamanashiensis. An acyl-CoA:cholesterol acyltransferase (ACAT) isozymes ACAT1 and ACAT2 inhibitor. Also acts as a tremorgen and cholesteryl ester (CE) synthesis inhibitor.

### Product Information

**Appearance** Orange-red powder

**CAS No.** 156967-65-6

**Molecular Formula** C<sub>32</sub> H<sub>41</sub> NO<sub>5</sub>

**Molecular Weight** 579.98

**Purity** >95% by HPLC

**Targets** ACAT1, ACAT2

**Solubility** H<sub>2</sub>O (1 mg/ml)

### Storage and Shipping Information

**Storage** -20 centigrade

**Shipping Conditions** Gel pack
