

Terpendole C

Cat. No. CEI-0395

Lot. No. (See product label)

Introduction

Description

Isolated from *Albophoma yamanashiensis*. An acyl-CoA:cholesterol acyltransferase (ACAT) isozymes ACAT1 and ACAT2 inhibitor. Also acts as a tremorgen and cholesteryl ester (CE) synthesis inhibitor.

Product Information

Appearance Orange-red powder

CAS No. 156967-65-6

Molecular Formula C₃₂ H₄₁ NO₅

Molecular Weight 579.98

Purity >95% by HPLC

Targets ACAT1, ACAT2

Solubility H₂O (1 mg/ml)

Storage and Shipping Information

Storage -20 centigrade

Shipping Conditions Gel pack
