

## Caspase-8 Inhibitor, Q-IETD-OPh

Cat. No. CEI-0443

Lot. No. (See product label)

### Introduction

**Description** A second-generation caspase-8 inhibitor that is potent, cell permeable, irreversible and nontoxic.

**Synonyms** Q-IE(OMe)-TD(OMe)-OPh; Quinolyl-Ile-Glu(OMe)-Thr-Asp(OMe)-OPh

### Product Information

**Appearance** White to Off-white Solid

**Molecular Formula** C<sub>38</sub> H<sub>45</sub> F<sub>2</sub> N<sub>5</sub> O<sub>11</sub>

**Molecular Weight** 484.59

**Purity** >98%

**Targets** CASP8

**Solubility** DMSO (~2 mg/ml on warming)

### Storage and Shipping Information

**Storage** -20 centigrade

**Shipping Conditions** Gel pack
