

Okadaic acid, Sodium Salt

Cat. No. CEI-0628

Lot. No. (See product label)

Introduction

Description Sodium salt form of the protein phosphatase inhibitor Okadaic acid with somewhat greater stability than the free acid when stored in organic solvents.

Synonyms Halochondrine A, Sodium Salt; OA

Product Information

Appearance White to off-white solid

CAS No. 209266-80-8

Molecular Formula $C_{44}H_{67}O_{13} \cdot Na$

Molecular Weight 300.37

Purity >98% by HPLC

Targets Proteasome

Solubility DMSO (20 mg/ml)

Storage and Shipping Information

Storage -20 centigrade

Shipping Conditions Gel pack
