

Okadaic acid, Potassium Salt

Cat. No. CEI-0629

Lot. No. (See product label)

Introduction

Description Potassium salt form of the protein phosphatase inhibitor Okadaic acid with somewhat greater stability

than the free acid when stored in organic solvents.

Synonyms Halochondrine A, Potassium Salt; OA

Product Information

Appearance Yellow solid

CAS No. 155751-72-7

Molecular

C44H67O13•K

Formula

Molecular 623.14

Weight

Purity >98% by HPLC

Targets Proteasome

Solubility DMSO (50 mg/ml)

Storage and Shipping Information

Storage -20 centigrade

Shipping Conditions Gel pack

Tel: 1-631-562-8517 1-516-512-3133
