

Compound W

Cat. No. CEI-0708

Lot. No. (See product label)

Introduction

Description Compound W is a γ -secretase inhibitor that has been shown to lower the levels of secreted A β 42 and N β 25.

Synonyms CW

Product Information

Appearance Purple solid

CAS No. 173550-33-9

Molecular Formula C₁₉ H₁₂ N₂ O₈

Chemical Name 3,5-Bis(4-nitrophenoxy)benzoic acid

Molecular Weight 585.69

Purity >98% by HPLC

Targets gamma-secretase

Solubility DMSO (150 mg/ml) or EtOH (5 mg/ml)

Storage and Shipping Information

Storage -20 centigrade

Shipping Conditions Gel pack
