PHA690509

Cat. No. CEI-1115

Lot. No. (See product label)

Introduction

Description	PHA690509 is a cyclin-dependent kinase A inhibitor with targeted therapies in oncology and hematology.

Product Information

CAS No.	492445-28-0
Molecular Formula	C17H21N3O2S
Chemical Name	(S)-2-(4-acetamidophenyl)-N-(5-isopropylthiazol-2-yl)propanamide
Molecular Weight	331.43
Purity	> 95%
Targets	CDK-A
Solubility	DMSO > 112mg/mL Water >1mg/mL Ethanol > 4mg/mL

Storage and Shipping Information

Storage	4 centigrade
Stability	2 years -20 centigrade Powder 1 month -4 centigrade in DMSO More than one month -80 centigrade in DMSO
