Ziprasidone hydrochloride hydrate

Cat. No. CEI-1166

Lot. No. (See product label)

Introduction

Description	Ziprasidone displays high affinity at 5-HT2A receptors with a 5-HT2A/D2 affinity ratiogreater than any other clinically available atypical antipsychotics.

Product Information

CAS No.	138982-67-9
Molecular Formula	C21H21ClN4OS.HCl.H2O
Chemical Name	5-(2-(4-(benzo[d]isothiazol-3-yl)piperazin-1-yl)ethyl)-6-chloroindolin-2-one hydrochloride
Molecular Weight	467.41
Purity	> 95%
Targets	5-HT2A receptors

Storage and Shipping Information

Storage	4 centigrade
