

Prazosin hydrochloride

Cat. No. CEI-1171

Lot. No. (See product label)

Introduction

Description Prazosin hydrochloride, a quinazoline derivative, is the first of a new chemical class of antihypertensives.

Synonyms ADRA2L1, ADRA2RL1, ADRARL1, ALPHA2BAR, alpha-2BAR

Product Information

CAS No. 19237-84-4

Molecular Formula C₁₉H₂₁N₅O₄.HCl

Chemical Name (4-(4-amino-6,7-dimethoxyquinazolin-2-yl)piperazin-1-yl)(furan-2-yl)methanone hydrochloride

Molecular Weight 419.86

Purity > 95%

Targets α₁ and α_{2B}-adrenoceptor

Storage and Shipping Information

Storage 4 centigrade
