

Protein Phosphatase 2Ac from Human, Recombinant

Cat. No. NATE-1398

Lot. No. (See product label)

Introduction

Description Divalent cation-independent catalytic subunit of protein phosphatase 2A. Useful for functional studies of the A and B subunit of the phosphatase.

Applications Useful for the study of enzyme kinetics and regulation, to dephosphorylate target substrates and to evaluate the effects of test substances on the activity of the phosphatase.

Synonyms Protein Phosphatase 2Ac; PP2Ac

Product Information

Species Human

Source Insect cells

Molecular Weight 38.6 kDa

Purity >90% estimated by SDS-PAGE

Storage and Shipping Information

Storage at -80°C

Stability As supplied, 6 months from the QC date provided on the Certificate of Analysis, when stored properly
