

AZD2461

Cat. No. CEI-1230

Lot. No. (See product label)

Introduction

Description AZD2461 is a novel inhibitor of PARP.

Product Information

CAS No. 1174043-16-3

Molecular Formula C22H22FN3O3

Chemical Name 4-[[4-fluoro-3-(4-methoxypiperidine-1-carbonyl)phenyl]methyl]-2H-phthalazin-1-one

Molecular Weight 395.43

Purity 98.00%

Targets PARP

Soluble in DMSO > 10 mM

Storage and Shipping Information

Storage Store at -20°C

Shipping Conditions Evaluation sample solution: ship with blue ice. All other available size: ship with RT,

or blue ice upon request
