

CTEP (RO4956371)

Cat. No. CEI-1295

Lot. No. (See product label)

Introduction

Description

CTEP (RO4956371) is a novel, long-acting, orally bioavailable allosteric antagonist of mGlu5 receptor with IC50 of 2.2 nM.

Product Information

CAS No.	871362-31-1
Molecular Formula	C19H13ClF3N3O
Chemical Name	2-chloro-4-[2-[2,5-dimethyl-1-[4-(trifluoromethoxy)phenyl]imidazol-4-yl]ethynyl]pyridine
Molecular Weight	391.77
Purity	99.08%
Targets	mGlu5
IC50	2.2 nM
Solubility	Soluble in DMSO > 10 mM

Storage and Shipping Information

Storage	Store at -20°C
Shipping Conditions	Evaluation sample solution: ship with blue ice. All other available size: ship with RT, or blue ice upon request
