

## D609

Cat. No. CEI-1301

Lot. No. (See product label)

### Introduction

**Description** D609 is an inhibitor of phosphatidylcholine specific phospholipase C (PC-PLC) with IC50 values of 94  $\mu$ M.

**Synonyms** D-609 potassium, D 609, D-609

### Product Information

**CAS No.** 83373-60-8

**Molecular Formula** C11H15KOS2

**Chemical Name** potassium O-(octahydro-1H-4,7-methanoinden-5-yl) carbonodithioate

**Molecular Weight** 266.47

**Purity** 0.98

**Targets** PC-PLC

**IC50** 94  $\mu$ M

**Solubility** Soluble in DMSO > 10 mM

### Storage and Shipping Information

**Storage** Store at -20°C

**Shipping Conditions** Evaluation sample solution: ship with blue ice. All other available size: ship with RT, or blue ice upon request
