

D609

Cat. No. CEI-1301

Lot. No. (See product label)

Introduction

Description D609 is an inhibitor of phosphatidylcholine specific phospholipase C (PC-PLC) with

IC50 values of 94 μ M.

Synonyms D-609 potassium, D 609, D-609

Product Information

CAS No. 83373-60-8

Molecular Formula C11H15KOS2

Chemical Name potassium O-(octahydro-1H-4,7-methanoinden-5-yl) carbonodithioate

Molecular Weight 266.47

Purity 98.00%

Targets PC-PLC

IC50 94 μM

Soluble in DMSO > 10 mM

Storage and Shipping Information

Storage Store at -20°C

Shipping Conditions Evaluation sample solution: ship with blue ice. All other available size: ship with RT,

or blue ice upon request
