

Dalcetrapib (JTT-705, RO4607381)

Cat. No. CEI-1305

Lot. No. (See product label)

Introduction

Description

Dalcetrapib is an inhibitor of rhCETP with IC50 value of 0.2 μ M.

Product Information

CAS No.

211513-37-0

Molecular Formula

C23H35NO2S

Chemical Name

S-[2-[[1-(2-ethylbutyl)cyclohexanecarbonyl]amino]phenyl] 2-methylpropanethioate

Molecular Weight

389.59

Targets

rhCETP

IC50

0.2 μ M

Solubility

Soluble in DMSO > 10 mM

Storage and Shipping Information

Storage

Store at -20°C

Shipping Conditions

Evaluation sample solution: ship with blue ice. All other available size: ship with RT, or blue ice upon request
