

Elacridar

Cat. No. CEI-1321

Lot. No. (See product label)

Introduction

Description Elacridar (GF120918; GW0918) is an inhibitor of P-glycoprotein.

Synonyms GF120918; GW0918; GG918; GF-120918; GF 120918

Product Information

CAS No. 143664-11-3

Molecular Formula C₃₄H₃₃N₃O₅

Chemical Name N-[4-[2-(6,7-dimethoxy-3,4-dihydro-1H-isoquinolin-2-yl)ethyl]phenyl]-5-methoxy-9-oxo-10H-acridine-4-carboxamide

Molecular Weight 563.64

Purity 99.15%

Targets BCRP

Solubility Soluble in DMSO

Storage and Shipping Information

Storage Store at -20°C

Shipping Conditions Evaluation sample solution: ship with blue ice. All other available size: ship with RT, or blue ice upon request
