

FK 3311

Cat. No. CEI-1338

Lot. No. (See product label)

Introduction

Description FK 3311 is a selective inhibitor of cyclooxygenase (COX)-2.

Synonyms FK-3311; FK3311

Product Information

CAS No. 116686-15-8

Molecular Formula C₁₅H₁₃F₂NO₄S

Chemical Name N-[4-acetyl-2-(2,4-difluorophenoxy)phenyl]methanesulfonamide

Molecular Weight 341.33

Purity 0.98

Targets COX-2

Solubility Soluble in DMSO > 10 mM

Storage and Shipping Information

Storage Store at -20°C

Shipping Conditions Evaluation sample solution: ship with blue ice. All other available size: ship with RT, or blue ice upon request
