

GNF 2

Cat. No. CEI-1351

Lot. No. (See product label)

Introduction

Description GNF-2 is a highly selective non-ATP competitive inhibitor of Bcr-Abl

Product Information

CAS No. 778270-11-4

Molecular Formula C₁₈H₁₃F₃N₄O₂

Chemical Name 3-[6-[4-(trifluoromethoxy)anilino]pyrimidin-4-yl]benzamide

Molecular Weight 374.32

Purity 0.9958

Targets Bcr-Abl

IC50 268 nM (SUP-B15 cell line) 273 nM (K562 cell line)

Solubility Soluble in DMSO > 10 mM

Storage and Shipping Information

Storage Store at +4°C

Shipping Conditions Evaluation sample solution: ship with blue ice. All other available size: ship with RT, or blue ice upon request
