

ITK inhibitor

Cat. No. CEI-1381

Lot. No. (See product label)

Introduction

Description ITK inhibitor is a potent inhibitor of ITK.

Product Information

CAS No. 439574-61-5

Molecular Formula C₃₁H₃₉N₅O₄S₂

Chemical Name N-[5-[5-(4-acetylpiperazine-1-carbonyl)-4-methoxy-2-methylphenyl]sulfanyl-1,3-thiazol-2-yl]-4-[(3-methylbutan-2-ylamino)methyl]benzamide

Molecular Weight 609.82

Purity 98.00%

Targets ITK

Solubility Soluble in DMSO

Storage and Shipping Information

Storage Store at -20°C

Shipping Conditions Evaluation sample solution: ship with blue ice. All other available size: ship with RT, or blue ice upon request
