

## Lersivirine

Cat. No. CEI-1396

Lot. No. (See product label)

### Introduction

**Description** Lersivirine (UK-453061) is a next-generation non-nucleoside inhibitor of reverse transcriptase under development for the treatment of HIV-1 infection.

**Synonyms** UK-453061; UK453061; UK 453061

### Product Information

**CAS No.** 473921-12-9

**Molecular Formula** C<sub>17</sub>H<sub>18</sub>N<sub>4</sub>O<sub>2</sub>

**Chemical Name** 5-[3,5-diethyl-1-(2-hydroxyethyl)pyrazol-4-yl]oxybenzene-1,3-dicarbonitrile

**Molecular Weight** 310.35

**Purity** 98.00%

**Targets** NNRT

**Solubility** Soluble in DMSO

### Storage and Shipping Information

**Storage** Store at -20°C

**Shipping Conditions** Evaluation sample solution: ship with blue ice. All other available size: ship with RT, or blue ice upon request
