

Nesbuvir

Cat. No. CEI-1443

Lot. No. (See product label)

Introduction

Description Nesbuvir is a selective inhibitor of HCV NS5B RNA-dependent RNA polymerase.

Synonyms HCV 796; HCV-796; HCV796, Nesbuvir

Product Information

CAS No. 691852-58-1

Molecular Formula C₂₂H₂₃FN₂O₅S

Chemical Name 5-cyclopropyl-2-(4-fluorophenyl)-6-[2-hydroxyethyl(methylsulfonyl)amino]-N-methyl-1-benzofuran-3-carboxamide

Molecular Weight 446.49

Purity 0.9881

Targets HCV NS5B RNA-dependent RNA polymerase

Solubility Soluble in DMSO

Storage and Shipping Information

Storage Store at -20°C

Shipping Conditions Evaluation sample solution: ship with blue ice. All other available size: ship with RT, or blue ice upon request
