

Oseltamivir acid

Cat. No. CEI-1455

Lot. No. (See product label)

Introduction

Synonyms GS 4071; Ro 64-0802

Product Information

CAS No. 187227-45-8

Molecular Formula C₁₄H₂₄N₂O₄

Chemical Name (3R,4R,5S)-4-acetamido-5-amino-3-pentan-3-yloxy-cyclohexene-1-carboxylic acid

Molecular Weight 284.35

Purity 0.98

Targets Influenza neuraminidase

Solubility Soluble in DMSO

Storage and Shipping Information

Storage Store at -20°C

Shipping Conditions Evaluation sample solution: ship with blue ice. All other available size: ship with RT, or blue ice upon request
